Activation - Status

Activation Status: Activation Not Started

This wizard will guide you through the process of activating the ADMIRALTY e-NP Reader.

It will allow you to set up the way that the ADMIRALTY e-NP Reader communicates with e-Navigator ashore and registers your installation.

To activate you will need either:

-Internet connection.

-Media (e.g. DVD/USB) if requesting activation via email.

-Your Login and Password details that will have been supplied by your ADMIRALTY Chart Agent.

When you are ready, click Next.
